

# BYOD Printing - Windows 10

When using a Windows 10 PC AND connected to the **wps-wlan** network, you can use the printing system to print from any program. You will need to install PaperCut's "Mobility Print" Printer Setup program.

## Install Printers

**Step A:** Go to this URL:

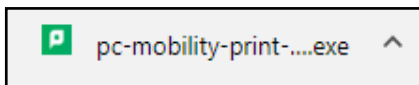

<http://bit.ly/MobilityPrintPC>

**Step B:** Under Step 1, click and Download the "Mobility Print Printer Setup" program

**Add networked printers**  
Important: Make sure your Windows device is connected to your organization's network.

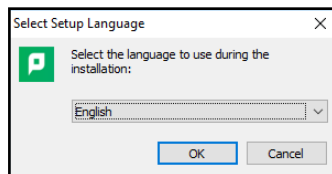

1. Download and run the **Mobility Print Printer Setup** (pc-mobility-print-printer-setup.exe).
2. On the License Agreement screen, click Next.
3. Select a printer; then click Next.  
Enter your PaperCut Username and Password; then click Next.
4. Click Finish.

**Step C:** Double click the downloaded file to install

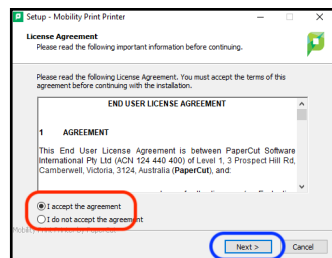

If prompted, click **Yes** to allow this app to install

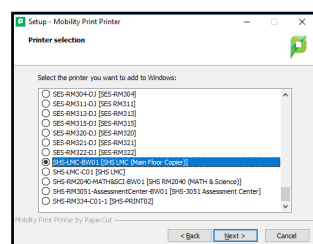

**Step D:** Click **OK** for English

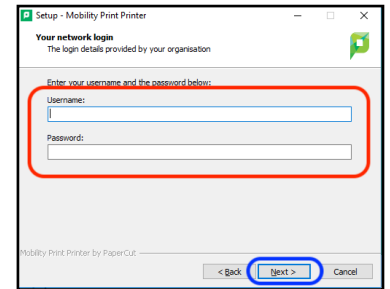

**Step E:** Click the **radial button** to Accept the agreement and then click **Next**.

**Step G:** The program will then search and retrieve available printers. Once the list loads, choose the correct printer from the list. Then click Next.

**Step H:** Enter your network **username and password** and click **Next**.

Click Finish on the next screen.

Re-run the program for each printer.

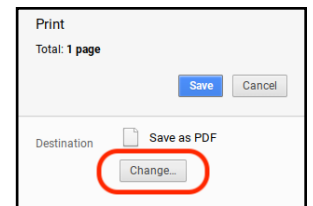

Then, follow Steps 1-4 to print from your personal device.

## To Print

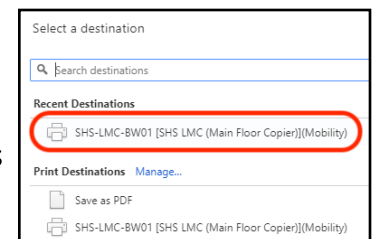

**Step 1:** Enter Ctrl-P on the keyboard, click File --> Print from the menu or click the Print button.

**Step 2:** Click the "Change" button to change the printer.

**Step 3:** Select the correct "Printer Name" from the list (either under Recent Destinations or Print Destinations).

-- The printers you added will have "(Mobility)" after the name --

**Step 4:** Click the "Print" button
