# iPhone/iPad Instructions

Westport WiFi

Note: If your device was previously connected to our secure network (wps-wlan), you will need to remove the "Westport Public Schools Secure Network" profile
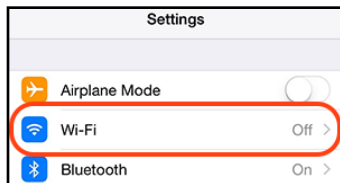

Go to "Settings" then "General" and "Profile

Then select the profile, and then tap "Delete Profile"

Step 1: Tap Settings

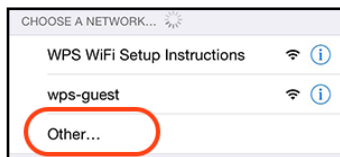

**Step 2:** Tap "Wi-Fi."

Step 3: Turn Wi-Fi on if needed

Step 4: Under "Choose A Network...," select "Other..."

Step 5: Enter "wps-wlan" in the "Name" field, then tap "Security"

Step 6: Select "WPA2 Enterprise" and tap "Other Network" at the top to return to the previous screen

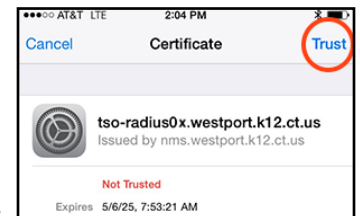

Step 7: Enter your WPS username and password in the appropriate fields

Step 8: Tap "Join" in the upper-right corner

Step 9: Tap "Trust" in the upper-right corner to trust the certificate. The certificate will be named "TSO-RADIUS03" or "SHS-RADIUS03"

Step 10: Verify that you are connected to "wps-wlan" by observing a check next to "wps-wlan"

Note: If you have previously connected to "wps-guest" or "wps-all-aboard" click the (i) to the right of the network

then click "Forget This Network" and "Forget"
